

## OEM Wall Mounted Air Curtain Fan Hot Heaters For Residential Door

### Our Product Introduction

#### Basic Information

- Place of Origin: China Foshan
- Brand Name: Available for ODM
- Certification: CE
- Model Number: FM3518
- Minimum Order Quantity: 1
- Price: Contact Us
- Packaging Details: Carton packaging 1 units per carton
- Delivery Time: 3-8 work days
- Payment Terms: T/T
- Supply Ability: 5000

#### Product Specification

- Applicable Industries: Hotels, Building Material Shops, Garment Shops, Manufacturing Plant, Machinery Repair Shops, Food & Beverage Factory, Farms, Restaurant, Home Use, Retail, Food Shop, Printing Shops, Construction Works, Energy & Mining, Food & Beverage Shops, Other, Advert
- Mounting: Wall / Window Mount
- After-sales Service Provided: Video Technical Support
- Place Of Origin: Guangdong, China
- Voltage: 220V50hz
- Customized Support: OEM, ODM, OBM
- Model Number: FM3518
- Warranty: 1 Year
- Core Components: Motor, Other
- Key Selling Points: Easy Installation, Large Air Volume, Low Noise

## Product Description

### Product Applications

Air curtains excel in various locations. Firstly, at subway station entrances, they block dust and odors from the tunnels. Secondly, they prevent rainwater from being blown into the station. Thirdly, in train station waiting areas, they help reduce dust caused by foot traffic. Fourthly, at bus stations, they prevent exhaust fumes from entering the waiting areas. Lastly, in airport terminals, they keep indoor air fresh, providing a pleasant environment for travelers.

### product casing

The curved casing and metal coating of the air curtain offer numerous benefits. Firstly, the elegant curved design enhances the venue's aesthetic appeal. Secondly, it optimizes airflow distribution. The metal coating provides excellent weather resistance, adapting to various climates. Thirdly, it is anti-static, reducing dust accumulation. Lastly, it improves the overall safety of the product.

### Product Motor

The motor of the air curtain boasts several notable advantages. Firstly, the pure copper motor is durable and reliable, standing the test of time. Secondly, the low friction coefficient of the ball bearings reduces energy loss. Thirdly, it has strong interference resistance, unaffected by external electromagnetic interference. Fourthly, it features excellent safety with overheat protection and other safeguards. Lastly, it is easy to install, saving users time and effort.

### Product impeller

The fiberglass fan wheel of the air curtain offers several key advantages. Firstly, it is robust and durable, reducing maintenance costs. Secondly, its lightweight construction lowers transportation expenses. Thirdly, it has strong chemical corrosion resistance. Fourthly, its balanced design minimizes vibration. Lastly, its sleek and elegant appearance complements various decor styles.

## Company Profile

**Guangdong Zhongdian Jiajin Environmental Technology Co., Ltd.** originated from Foshan Nanhai Zhongxing Hardware Electrical Appliance Factory (with brands including Zhongdian Fresh Air and Zhongdian Xinke). The company specializes in the research, development, and manufacturing of DKT external rotor air conditioning fans (snail-type and square-type), mixed flow booster duct fans, KTF stainless steel external rotor centrifugal air handling units, air curtains, purifying low-noise fans, and centrifugal low-noise ventilation equipment. It is a modern national high-tech enterprise focusing on EC frequency conversion digital energy-saving fans. The manufacturing base is located in Foshan, Guangdong Province. Since its establishment in 1997, the company has adhered to a quality-centric approach and actively developed its proprietary brand, Zhongdian. It has successively passed ISO9001, CE, and national CCC mandatory product certifications and has obtained multiple utility model patents. The company ranks among the top in the industry in terms of comprehensive strength and brand influence.

**Guangdong Zhongdian Jiajin Environmental Technology Co., Ltd.** operates under the philosophy of "Technological Innovation, Respect for Talent, Reform and Innovation, Pursuit of Excellence." The company has introduced over ten advanced automation devices and possesses a testing laboratory that complies with the national standard GB/T 1236-2017 "Performance Testing of Industrial Fans with Standardized Ducts," along with a 5S management system. It emphasizes user experience with its products and focuses on continually meeting customer needs. Through relentless efforts, the company has become a leader in the fresh air system market.

The company adheres to the principle of "Quality First, Quantity Second," earning trust from users across the country with its excellent quality and outstanding performance. It strives to enhance competitive advantages in pre-sales, sales, and after-sales services, and continues to uphold the creed of "Customer First, Service Excellence." The company is dedicated to continuous product and service iteration, aiming to become a leading brand in high-end fresh air system equipment.

## EXHIBITION SHOW

We have strong sales network system and can undertake a large number of OEM/ODM orders.. Our products are mainly exported to Europe, America, the Middle East and Southeast Asia, and old customers account for up to 30%.Our products are made of pure copper tubes and use Yongan motors, has the characteristics of high quality, super mute, comfortable style and reasonable price. We have independent R & D and design team that can meet any comments and conditions you have on product customization and technology research and development.

## The team

Our team will also carry out some outdoor group building activities to enhance the cohesion of employees and devote themselves to work with more enthusiasm.
