

White Commercial Air Curtain Fan Wall Mounted Cross Flow Cooling Air Door 6kw

Our Product Introduction

for more products please visit us on zd-fan.com

Basic Information

- Place of Origin: China Foshan
- Brand Name: Available for ODM
- Certification: CE
- Model Number: FM3520Y
- Minimum Order Quantity: 1
- Price: Contact Us
- Packaging Details: Carton packaging 1 units per carton
- Delivery Time: 3-8 work days
- Payment Terms: T/T
- Supply Ability: 5000

Product Specification

- Type: Air Curtain
- Mounting: Wall / Window Mount
- Applicable Industries: Hotels
- Place Of Origin: China Foshan
- Warranty: 1 Year
- Key Selling Points: High Air Speed And High Air Capacity
- Weight (KG): 24KG
- Warranty Of Core Components: 1 Year
- Core Components: Motor
- Material: Full Metal Casing
- Noise Level: 64db
- Highlight: Wall Mounted Air Curtain Fan,
6kw Air Curtain Fan,
White Commercial 6kw air curtain

Product Description

Product Applications

A pet store serves as an activity space for pets, and air curtains can create a pleasant environment for both pets and customers. Air curtains effectively block outdoor dust, odors, and insects from entering the store, helping to maintain cleanliness and hygiene inside. For pets, air curtains can minimize the impact of external negative factors, reducing the risk of illness. For customers, air curtains allow them to browse pet supplies and interact with pets in a comfortable setting. Additionally, the low operating noise of air curtains won't startle the pets. Furthermore, the attractive design of air curtains adds a warm atmosphere to the pet store, attracting more customers.

Product Housing

The design of the air curtain housing features excellent adaptability, accommodating various installation environments and usage requirements. Whether in high, low, or humid conditions, the housing maintains optimal performance and appearance. Additionally, the housing can be customized according to different models and specifications of air curtains, ensuring a perfect match. Its eco-friendliness is outstanding, as the housing materials are recyclable and do not contribute to environmental pollution, providing users with a green and sustainable choice.

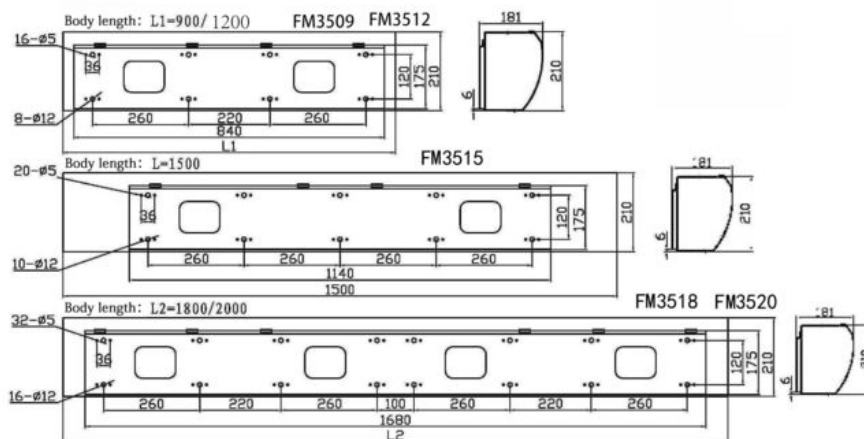

Product Motor

The environmental performance of the core motor is one of the key advantages of the air curtain. Made from eco-friendly materials and utilizing advanced manufacturing processes, the motor operates without emitting harmful substances, ensuring it is safe for both the environment and human health. The eco-friendly motor aligns with modern society's demand for green solutions, offering users a healthier and safer choice. Additionally, this environmentally friendly motor reduces pollution, contributing to sustainable development. Furthermore, it enhances the market competitiveness of the air curtain by meeting users' demand for eco-friendly products.

Product Fan Wheel

The blower wheel design of the air curtain takes energy efficiency and environmental protection into account. Utilizing a high-efficiency motor and an optimized wheel structure, it generates a powerful air curtain while consuming less energy. This design not only aligns with modern society's demands for energy-saving and eco-friendly solutions but also helps users save on energy costs while reducing environmental pollution. Furthermore, the energy-efficient and environmentally friendly blower wheel design contributes to the sustainable development of the air curtain industry, supporting the construction of a greener society.
