

All-Metal Construction Ceiling Ventilation System For Enhanced Air Circulation

Our Product Introduction

Basic Information

- Place of Origin: China Foshan
- Brand Name: Available for ODM
- Certification: CE
- Model Number: DJT31-230
- Minimum Order Quantity: 1
- Price: Contact Us
- Packaging Details: Carton packaging 1 units per carton
- Delivery Time: 3-8 work days
- Payment Terms: T/T
- Supply Ability: 5000

Product Specification

- Quiet Operation: Yes
- Applications: Hotel / School / Residence / Office / Bathroom
- Air Volume: 120-600 M³/h
- Product Category: Inline Duct Fans
- Motor: 100% Copper Coil
- Duct Size: 100 Mm / 150 Mm
- High Efficiency Design: Yes
- Product Name: Wholesale Fresh Air Extraction Ceiling Mounted Ventilation Indoor Systems
- Highlight: **Enhanced Air Circulation Ceiling Ventilation System**
,
All-Metal Construction Ceiling Ventilation System

Product Description

Product Description:

The Inline Duct Fans are designed to move air through ductwork and are ideal for a variety of applications, including residential, commercial, and industrial settings. They are available in air volume ranges of 120-600 M³/h, making them suitable for spaces of various sizes.

The Inline Duct Fans are made with high-quality materials and come equipped with safety features like overheating protection and motor overload protection. These features ensure that the fans operate safely and efficiently, minimizing the risk of damage or injury.

The core components of the Inline Duct Fans are the motor and engine. The motor is made from 100% copper coil, which provides excellent electrical conductivity and helps to increase the lifespan of the fan. The engine is designed to be durable and reliable, ensuring that the fan can operate continuously for extended periods of time.

One of the key benefits of the Inline Duct Fans is their ability to provide high static pressure ranges of 80-220 Pa. This makes them ideal for use in ductwork systems that require high pressure to move air through long distances or against resistance.

Overall, the Inline Duct Fans are a great choice for anyone looking to improve indoor air quality in their building. Whether you are a homeowner or a building manager, these fans can help to ensure that the air in your space is clean and fresh. So if you are looking for reliable and efficient ventilation solutions, be sure to consider the Inline Duct Fans.

Features:

Product Name: Inline Duct Fans

Motor: 100% Copper Coil

Mounting: Ceiling

Air Volume: 120-600 M³/h

Function: Ceiling Air Flow Ventilator System

High efficiency design: Yes

This Inline Duct Fans product is ideal for use in ventilation systems in building, as it provides fresh air ventilation and improves the air flow. Its ceiling mounting design makes it easy to install and maintain, and the 100% copper coil motor ensures long-lasting performance. With an air volume range of 120-600 M³/h and a high efficiency design, this Inline Duct Fans product is an excellent choice for any ventilation system in building.

Technical Parameters:

Core Components	Motor, Engine
Noise	32-58 DB
Motor	100% Copper Coil
High efficiency design	Yes
Duct Size	100 Mm / 150 Mm
Safety features	Overheating protection, motor overload protection
Power	24-100W
Applications	Hotel / School / Residence / Office / Bathroom
Quiet operation	Yes
Product Category	Inline Duct Fans

This product is ideal for use in extraction ventilation systems, fresh air ventilation systems, and air extraction systems.

Applications:

These Inline Duct Fans are all-metal constructed with a duct size of 100 mm and 150 mm. They are indoor air quality products that provide excellent ventilation for your home or business. The fans are designed to be used in conjunction with an air extraction system, where stale air is removed from the building and replaced with fresh air. This can improve the air quality in your home or business, making it more pleasant and healthier to breathe.

Our Inline Duct Fans are suitable for a variety of applications, including bathrooms, kitchens, and other areas where moisture and odors can build up. These fans can help prevent mold and mildew growth, while also reducing the amount of humidity in the air. The fans can also be used to help regulate temperatures in your home or business, making them an excellent addition to any air ventilation system.

Our Inline Duct Fans come with safety features such as overheating protection and motor overload protection. The motor is 100% copper coil, ensuring durability and longevity. These fans are a reliable and efficient way to improve the air quality in your home or business.

Support and Services:

The Inline Duct Fans product comes with comprehensive technical support and services. Our team of experts is available to provide assistance with installation, troubleshooting, and maintenance. We also offer repair services and replacement parts to ensure that your product continues to function at its highest capacity. Additionally, our customer service team is available to answer any questions or concerns you may have regarding the product. Contact us for more information on our technical support and services.

Packing and Shipping:

Product Packaging:

The Inline Duct Fans are carefully packed in a sturdy cardboard box to ensure safe delivery. The box is labeled with product information and handling instructions for easy identification.

Shipping:

We offer free shipping for all orders of Inline Duct Fans within the continental United States. International orders may incur additional shipping fees. Orders are processed within 2 business days and are shipped via standard ground shipping. Expedited shipping options are available for an additional fee. Tracking information will be emailed to you once your order has shipped.

FAQ:

Q: What is the brand name of this inline duct fan?

A: The brand name is Available for ODM.

Q: What is the model number of this inline duct fan?

A: The model number is DJT31-230.

Q: What certification does this inline duct fan have?

A: This inline duct fan has CE certification.

Q: Where is this inline duct fan made?

A: This inline duct fan is made in China Foshan.

Q: What is the minimum order quantity for this inline duct fan?

A: The minimum order quantity for this inline duct fan is 1 unit.

Q: What are the payment terms for this inline duct fan?

A: The payment terms for this inline duct fan are T/T.

Q: What is the supply ability for this inline duct fan?

A: The supply ability for this inline duct fan is 5000 units.

Q: What is the delivery time for this inline duct fan?

A: The delivery time for this inline duct fan is 3-8 work days.

Q: What are the packaging details for this inline duct fan?

A: The packaging details for this inline duct fan are carton packaging, with 1 unit per carton.

Q: How much does this inline duct fan cost?

A: Please contact us for pricing information.

Rotate 45 degrees to the right and tighten firmly.

Fasten the air duct interface to the air inlet and outlet.
