Product Description

Product applications

Air curtain is a powerful fan that creates an invisible high speed air barrier over the entrance to isolate the interior and exterior air environment and maintain temperature separation. Air curtains are a huge energy saving device as they help to prevent the conditioned air escape to exterior, blocking the entry of dust, smoke and flying insects.

Guide louver

New guide louver design can be adjusted randomly to different wind direction.

High Quality Ball Bearing

Use high-quality ball bearing insted of the oil bearing with longer tife-span and ensure motor running more smoothly and silent.

100% Copper Wire Motor

Pure copper wire motor with low temperature rise to ensure consistent running without failure.

Low Noise Multi-blade Impeler

The unequal pitch and multi-blade impeller design is characterized of lower noise and smaller vibration.
