

## Large Air Volume Strong Wind Power Air Curtain Wind Screen Machine With Natural Wind

Our Product Introduction

for more products please visit us on [zd-fan.com](http://zd-fan.com)

### Basic Information

- Place of Origin: China Foshan
- Brand Name: Available for ODM
- Certification: CE
- Model Number: FM3518
- Minimum Order Quantity: 1
- Price: Contact Us
- Packaging Details: Carton packaging 1 units per carton
- Delivery Time: 3-8 work days
- Payment Terms: T/T
- Supply Ability: 5000

### Product Specification

- Applicable Industries: Door
- After-sales Service Provided: Online Support
- Acoustical Noise: 55-64dB
- Voltage: 220V / 50hz
- Customized Support: OEM, ODM, OBM
- Installation Type: Split System
- Model Number: FM 3518
- Warranty Of Core Components: 5 Year
- Fan Type: Commercial Air Curtain
- Dimension(L\*W\*H): 2000 \* 207 \* 175 Mm
- Certification: CE
- MOQ: 1 Set
- Function: Low Noise, Energy Saving
- Air Flow: 4000 M3/h

## Product Description

### Product applications

The air curtain effectively regulates the indoor environment, blocks the outside air flow, and prevents the loss of air conditioning effect. Reduce the burden of air conditioning by maintaining ideal temperatures in restaurants, bars or refrigerators. As a result, maintenance costs are reduced and energy waste is reduced. Air curtain acts as a heat insulation layer to improve heating and cooling efficiency and reduce energy consumption. This approach significantly reduces total energy consumption, reduces carbon footprint, and saves operating expenses. At the same time, it maintains a stable temperature by balancing hot and cold air flows.

### Robust Enclosure Design

Expertly crafted with reinforced, thicker panels and a meticulously engineered structure to enhance airflow efficiency and ensure lasting durability.

### Enhance Motor Performance with Premium Ball Bearings

Opting for high-end ball bearings instead of standard hydraulic models significantly improves motor durability and ensures exceptionally quiet, smooth operation.

#### **100% Copper Motor for Optimal Performance**

Our motor utilizes pure copper wiring, meticulously designed to deliver stable and robust performance. Built for dependability and long-lasting operation, it excels in energy efficiency, offering a cost-effective solution tailored to your needs.

#### **Optimized Aerodynamic Wind Wheel**

Our oversized wind wheel is meticulously engineered to enhance air intake, dampen vibrations, and lower noise levels. It ensures a consistent and smooth airflow, thereby improving overall performance and efficiency.

## Company Profile

**Guangdong Zhongdian Jiajin Environmental Technology Co., Ltd.** originated from Foshan Nanhai Zhongxing Hardware Electrical Appliance Factory (with brands including Zhongdian Fresh Air and Zhongdian Xinke). The company specializes in the research, development, and manufacturing of DKT external rotor air conditioning fans (snail-type and square-type), mixed flow booster duct fans, KTF stainless steel external rotor centrifugal air handling units, air curtains, purifying low-noise fans, and centrifugal low-noise ventilation equipment. It is a modern national high-tech enterprise focusing on EC frequency conversion digital energy-saving fans. The manufacturing base is located in Foshan, Guangdong Province.

Since its establishment in 1997, the company has adhered to a quality-centric approach and actively developed its proprietary brand, Zhongdian. It has successively passed ISO9001, CE, and national CCC mandatory product certifications and has obtained multiple utility model patents. The company ranks among the top in the industry in terms of comprehensive strength and brand influence.

**Guangdong Zhongdian Jiajin Environmental Technology Co., Ltd.** operates under the philosophy of "Technological Innovation, Respect for Talent, Reform and Innovation, Pursuit of Excellence." The company has introduced over ten advanced automation devices and possesses a testing laboratory that complies with the national standard GB/T 1236-2017 "Performance Testing of Industrial Fans with Standardized Ducts," along with a 5S management system. It emphasizes user experience with its products and focuses on continually meeting customer needs. Through relentless efforts, the company has become a leader in the fresh air system market.

The company adheres to the principle of "Quality First, Quantity Second," earning trust from users across the country with its excellent quality and outstanding performance. It strives to enhance competitive advantages in pre-sales, sales, and after-sales services, and continues to uphold the creed of "Customer First, Service Excellence." The company is dedicated to continuous product and service iteration, aiming to become a leading brand in high-end fresh air system equipment.

## EXHIBITION SHOW

We have strong sales network system and can undertake a large number of OEM/ODM orders.. Our products are mainly exported to Europe, America, the Middle East and Southeast Asia, and old customers account for up to 30%.Our products are made of pure copper tubes and use Yongan motors, has the characteristics of high quality, super mute, comfortable style and reasonable price. We have independent R & D and design team that can meet any comments and conditions you have on product customization and technology research and development.

## The team

Our team will also carry out some outdoor group building activities to enhance the cohesion of employees and devote themselves to work with more enthusiasm.

## Showcase of Factory Capabilities
