

Quiet Metal Housing Precision Motor Centrifugal Air Curtain Flow

Our Product Introduction

for more products please visit us on zd-fan.com

Basic Information

- Place of Origin: China Foshan
- Brand Name: Available for ODM
- Certification: CE
- Model Number: FM3518
- Minimum Order Quantity: 1
- Price: Contact Us
- Packaging Details: Carton packaging 1 units per carton
- Delivery Time: 3-8 work days
- Payment Terms: T/T
- Supply Ability: 5000

Product Specification

- Applicable Industries: Shopping Mall Entrance Door
- After-sales Service Provided: Online Support
- Acoustical Noise: 55-64dB
- Voltage: 220V / 50hz
- Customized Support: OEM, ODM, OBM
- Installation Type: Split System
- Model Number: FM 3518
- Warranty Of Core Components: 5 Year
- Fan Type: Commercial Air Curtain
- Dimension(L*W*H): 2000 * 207 * 175 Mm
- Certification: CE
- MOQ: 1 Set
- Funtion: Low Noise, Energy Saving
- Air Flow: 4000 M3/h

Product Description

Product applications

Air curtains direct a high-velocity air stream across doorways, acting as an invisible barrier to control airflow and stabilize indoor temperatures. Heated air curtains in cold climates disperse warm air downwards, while non-heated versions in hot climates block external heat, maintaining interior comfort. This results in significant energy savings, with studies showing up to 80% reduction in energy usage near entrances, making them a cost-effective long-term investment.

Robust Enclosure Design

Precision-crafted with reinforced, thicker panels and a meticulously engineered structure to enhance airflow efficiency and ensure lasting durability.

Enhance Motor Efficiency with Superior Ball Bearings

Opting for high-end ball bearings over standard hydraulic alternatives significantly boosts motor durability and ensures whisper-quiet, seamless performance.

Pure Copper Motor for Optimal Performance

Our motor features 100% pure copper wiring, expertly engineered to deliver stable and robust performance. Built for dependability and long-lasting operation, it stands out in energy efficiency, offering a cost-effective solution tailored to your requirements.

Aerodynamically Enhanced Wind Wheel for Optimal Airflow

Our oversized wind wheel is precisely engineered to enhance air intake, dampen vibrations, and lower noise levels. It ensures a steady and smooth airflow, improving overall performance and efficiency.

Company Profile

Guangdong Zhongdian Jiajin Environmental Technology Co., Ltd. originated from Foshan Nanhai Zhongxing Hardware Electrical Appliance Factory (with brands including Zhongdian Fresh Air and Zhongdian Xinke). The company specializes in the research, development, and manufacturing of DKT external rotor air conditioning fans (snail-type and square-type), mixed flow booster duct fans, KTF stainless steel external rotor centrifugal air handling units, air curtains, purifying low-noise fans, and centrifugal low-noise ventilation equipment. It is a modern national high-tech enterprise focusing on EC frequency conversion digital energy-saving fans. The manufacturing base is located in Foshan, Guangdong Province.

Since its establishment in 1997, the company has adhered to a quality-centric approach and actively developed its proprietary brand, Zhongdian. It has successively passed ISO9001, CE, and national CCC mandatory product certifications and has obtained multiple utility model patents. The company ranks among the top in the industry in terms of comprehensive strength and brand influence.

Guangdong Zhongdian Jiajin Environmental Technology Co., Ltd. operates under the philosophy of "Technological Innovation, Respect for Talent, Reform and Innovation, Pursuit of Excellence." The company has introduced over ten advanced automation devices and possesses a testing laboratory that complies with the national standard GB/T 1236-2017 "Performance Testing of Industrial Fans with Standardized Ducts," along with a 5S management system. It emphasizes user experience with its products and focuses on continually meeting customer needs. Through relentless efforts, the company has become a leader in the fresh air system market.

The company adheres to the principle of "Quality First, Quantity Second," earning trust from users across the country with its excellent quality and outstanding performance. It strives to enhance competitive advantages in pre-sales, sales, and after-sales services, and continues to uphold the creed of "Customer First, Service Excellence." The company is dedicated to continuous product and service iteration, aiming to become a leading brand in high-end fresh air system equipment.

EXHIBITION SHOW

We have strong sales network system and can undertake a large number of OEM/ODM orders.. Our products are mainly exported to Europe, America, the Middle East and Southeast Asia, and old customers account for up to 30%.Our products are made of pure copper tubes and use Yongan motors, has the characteristics of high quality, super mute, comfortable style and reasonable price. We have independent R & D and design team that can meet any comments and conditions you have on product customization and technology research and development.

The team

Our team will also carry out some outdoor group building activities to enhance the cohesion of employees and devote themselves to work with more enthusiasm.
