

Dual-Speed Ventilation Fans Inline Duct & Mixed Flow Silent & Weatherproof Centrifugal Performance

Our Product Introduction

for more products please visit us on zd-fan.com

Basic Information

- Place of Origin: China Foshan
- Brand Name: Available for ODM
- Certification: CE
- Model Number: DJT10-20
- Minimum Order Quantity: 1
- Price: Contact Us
- Packaging Details: Carton packaging 1 units per carton
- Delivery Time: 3-8 work days
- Payment Terms: T/T
- Supply Ability: 5000

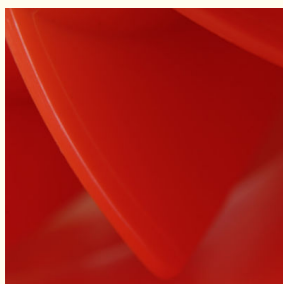

Product Specification

- Applicable Industries: Hotels, Garment Shops, Building Material Shops, Manufacturing Plant, Machinery Repair Shops, Food & Beverage Factory, Farms, Restaurant, Home Use, Retail, Food Shop, Printing Shops, Construction Works, Energy & Mining, Food & Beverage Shops, Advertising C
- Electric Current Type: AC
- Mounting: Duct Fan
- After-sales Service Provided: Online Support
- Place Of Origin: China Foshan
- Customized Support: OEM
- Blade Material: Plastic
- Voltage: 220V
- Warranty: 1 Year
- Product Name: Ventilation

Product Description

Product Applications

Inclined flow fans excel in ventilation and air exchange across various settings. In factory workshops, they swiftly replace stale air, eliminating odors and harmful gases to create a healthier working environment for employees. In warehouses, these fans help prevent goods from dampness and mold, ensuring superior storage quality. Whether in large industrial sites or small commercial spaces, inclined flow fans are a powerful ally for effective ventilation.

Product Fan Wheel

The impeller design of the inclined flow fan offers numerous benefits. Its unique shape and structure efficiently propel air movement, while its advanced aerodynamic design minimizes air resistance and enhances overall efficiency. Constructed from robust and durable materials, the impeller withstands high-speed rotation pressures, ensuring long-term stable operation.

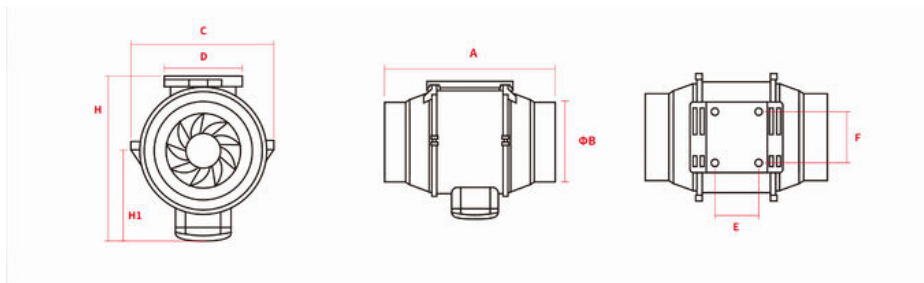

Ease of Installation

Inclined flow fans are distinguished by their user-friendly installation features. Their straightforward structure, comprising minimal complex components, allows installers to quickly understand and assemble the unit with ease. The simple connections between parts require no specialized skills, significantly reducing both installation difficulty and time costs.

Product Specifications

Model number	Power	Airflow	Static Pressure	Noise Level	Duct Diameter	Quantity per Carton	Net Weight
	(W)	(m5/h)	(Pa)	(dB)	(mm)	(Unit Box)	(kg)
DJT10-20	30/26	200/170	183/130	30/25	100	6	1.8
DJT15-54	48/40	540/384	330/280	40/35	150	6	2.2
