

OEM Water Cooling High-Efficiency Cabinet Centrifugal Fan for Commercial Culinary Environments

Our Product Introduction

for more products please visit us on zd-fan.com

Basic Information

- Place of Origin: China Foshan
- Brand Name: Available for ODM
- Certification: CE
- Model Number: LFT32G-35
- Minimum Order Quantity: 1
- Price: Contact Us
- Packaging Details: Carton packaging 1 units per carton
- Delivery Time: 3-8 work days
- Payment Terms: T/T
- Supply Ability: 5000

Product Specification

- Applicable Industries: Kitchen
- Electric Current Type: AC
- After-sales Service Provided: Online Support
- Place Of Origin: China Foshan
- Voltage: 220V Or 380V
- Customized Support: OEM 、 ODM
- Mounting: FREE STANDING
- Model Number: LFT55G-50
- Warranty: 1 Year
- Core Components: Motor, Impeller
- Type: Centrifugal Ventilation Cabinet
- Fan Type: Centrifugal Fresh Air Cabinet
- Keyword: Low Noise
- Motor Type: AC Motor

Product Description

Product Application

Range hood kitchen appliance features an all-copper precision motor, upgraded water curtain cooling system, high-quality double ball bearings, and aluminum housing. Compared to iron housing, it provides enhanced heat dissipation, oil resistance, and smoke resistance, with an IP54 protection rating. Ideal for kitchen ventilation, it operates stably with low noise and maintains durable airflow performance.

Technical Superiority

Performance Certification

IP54 Rating:

Dust ingress prevention (ISO 20653 compliant).

Water splashing resistance (tested at 10 L/min for 5 minutes).

Noise Control: ≤55 dB(A) at 1 m distance (meets GB/T 17713-2025 standards).

Airflow Stability: Maintains 95% efficiency after 3,000 cycles (18 m³/min baseline).

Upgraded Cooling System

Water Curtain Mechanism: Lowers motor temperature by 15–20°C through evaporative cooling, extending component lifespan by 2–3 years. Compatible with 5–40°C ambient temperatures.

Core Components

All-Copper Precision Motor: Ensures 20% higher energy efficiency and 30% longer lifespan than standard motors. Copper's superior conductivity reduces heat accumulation, critical for continuous kitchen operations.

Dual Ball Bearings: Minimize friction loss (≤ 0.5 dB reduction), supporting 15,000-hour continuous operation. Ideal for high-temperature environments (up to 150°C).

User-Centric Design

Scenario Compatibility:

Commercial kitchens (8–12 air changes/hour).

Home kitchens (≤ 6 m² space optimization).

Maintenance: Tool-free filter access, 30% faster cleaning cycle.

Product Parameters

Model Number	Voltage	Air Volume	Power	Noise	Voltage	Noter Consumption	Number Of open tuyere	Weight
Unit	(V)	(m³/h)	(W)	(dB)	(Pa)	(L/H)	(pcs)	(KG)
LFT32G-35D	220	3500	320	49	420	3	8-10	57
LFT32G-35	380	3500	320	49	430	3	8-10	57
LFT55G-50D	220	5000	550	53	449	6	10-15	68
LFT55G-50	380	5000	550	53	468	6	10-15	68

Company Profile

Guangdong Zhongdian Jiajin Environmental Technology Co., Ltd.

Originating from Foshan Nanhai Zhongxing Hardware Electrical Appliance Factory, which includes brands such as Zhongdian Fresh Air and Zhongdian Xinke, the company specializes in research, development, and manufacturing. The product line encompasses DKT external rotor air conditioning fans (both snail-type and square-type), mixed flow booster duct fans, KTF stainless steel external rotor centrifugal air handling units, air curtains, purifying low-noise fans, and centrifugal low-noise ventilation equipment. As a modern national high-tech enterprise, the focus lies on EC frequency conversion digital energy-saving fans, with its manufacturing base situated in Foshan, Guangdong Province.

Since its founding in 1997, the company has consistently prioritized quality and actively cultivated its own brand, Zhongdian. It has successfully passed ISO9001, CE, and national CCC mandatory product certifications, and holds multiple utility model patents. In terms of overall strength and brand influence, the company is ranked among the top in the industry.

Guangdong Zhongdian Jiajin Environmental Technology Co., Ltd.

Company Philosophy

Guided by the philosophy of "Technological Innovation, Respect for Talent, Reform and Innovation, Pursuit of Excellence," our company has integrated over ten state-of-the-art automation devices. Our testing laboratory complies with the national standard GB/T 1236-2017 "Performance Testing of Industrial Fans with Standardized Ducts" and operates under a rigorous 5S management system. We prioritize user experience and continuously strive to meet customer needs, making us a leader in the fresh air system market.

Quality and Service Commitment

We adhere to the principle of "Quality First, Quantity Second," earning nationwide trust through our superior quality and performance. Our goal is to enhance our competitive edge in pre-sales, sales, and after-sales services while upholding our creed of "Customer First, Service Excellence." We are dedicated to ongoing product and service improvement, aiming to establish ourselves as a leading brand in high-end fresh air system equipment.

EXHIBITION SHOW

We have strong sales network system and can undertake a large number of OEM/ODM orders.. Our products are mainly exported to Europe, America, the Middle East and Southeast Asia, and old customers account for up to 30%. Our products are made of pure copper tubes and use Yonggan motors, has the characteristics of high quality, super mute, comfortable style and reasonable price. We have independent R & D and design team that can meet any comments and conditions you have on product customization and technology research and development.

The team

Our team will also carry out some outdoor group building activities to enhance the cohesion of employees and devote themselves to work with more enthusiasm.
